Second Announcement of the Scientific Conference of the 150th anniversary of the Institute of Agriculture and Tourism

Dear colleagues,

It is my great pleasure, on behalf of the organizers – the Department of Natural Sciences of the Croatian Academy of Sciences and Arts, the Academy of Agricultural Sciences, the Croatian Society of Agronomists, and the Institute of Agriculture and Tourism – to invite you to the Scientific Conference:

“From Science to Innovation for Sustainable Development of Agriculture and Tourism”

which will be held on May 8–9, 2025, in Poreč.

This conference is one of the key events in the celebration of **the 150th anniversary of the Institute of Agriculture and Tourism**, highlighting the importance of scientific and innovative thinking in facing the challenges of our time.

The aim of this conference is to bring together experts from academia, agriculture, food technology, and tourism, as well as experts focusing on innovations in agriculture and tourism and their interconnection. This interdisciplinary approach is essential for ensuring sustainability and fostering stronger synergies between agriculture and tourism, which together serve as pillars of economic development.

You will have the opportunity to present your scientific research through oral presentations based on submitted abstracts. In addition, a project presentation section will be organized within the conference. This will be an opportunity to disseminate the results of your work, but also to establish new partnerships to further enhance your current and future projects.

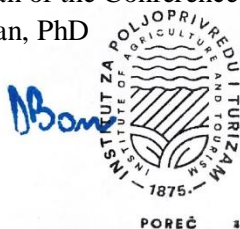

I warmly invite you to actively participate in this conference and contribute to the exchange of knowledge and experiences, inspiring discussions, and networking with colleagues from Croatia and abroad. Your participation will enrich this important event and contribute to the achievement of its goals.

I look forward to meeting you in Poreč!

Best regards,

Chairman of the Conference Organizing Committee

Dean Ban, PhD

POREČ

Director of the Institute of Agriculture and Tourism
